# ABOUT MKR HARTAMAS

---

## MISSION

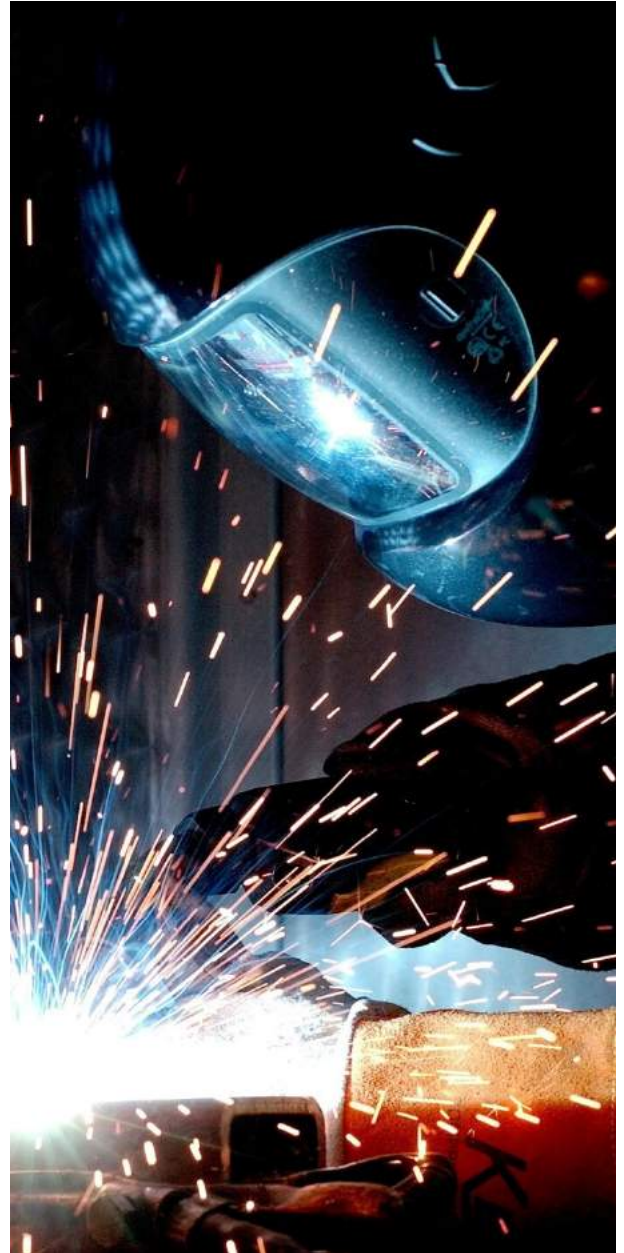

Our mission is to deliver significant business value to our customers worldwide through cost effective, safe, and efficient engineering solutions as per clients' requirement.

## VISION

To be the trusted project delivery partner, advisor and preferred provider of metal fabrication and engineering solution.

## METAL FABRICATION SPECIALIST

We specialize in metal works fabrication for engineering projects with proven track record across different industries.

MKR continuously built upon its core strength and values to support the industry in creating a sustainable future. Apart from building infrastructures and providing engineering consultation, MKR strives to build trust with all the stakeholders in the industry from government to private sectors. Various small to large scale projects have been successfully implemented and handed over to clients.

### **Pressure Vessels, Fabricated to Perfection.**

Our world-class facility is capable of fabricating massive vessels sizes in a range of materials including stainless and alloy. Our flexible capacities include uniquely challenging pressure vessel sizes, performance requirements, production volumes, and delivery timelines.

# PRODUCTS AND SERVICES

*With extensive experience and diversified portfolio, MKR continue to go from strength to strength.*

MKR key focus area is in providing turnkey solution for our clients mainly in the Asia Pacific Region. We have built our niche as the go-to specialist in metal fabrication works. Our recent projects include the construction of several Oil and Gas training facilities for one of the regulatory bodies in Malaysia.

*Our commitment to superior service and technical support does more than get the job done. We get the job done right.*

*Our unwavering focus on the customer's need drives our engineering solution development.*

## WHAT MKR PROVIDE

From pressure vessels and large cylindrical products to pipe work and general fabrication, we manufacture high precision products in carbon steel, stainless steel, monel, aluminum, hastelloy, nickel and alloys that achieves superior performance, quality, industry-leading reliability and delivery.

### FULL SERVICE SOLUTION

*Complete design engineering services include drums, skirted, truck mounted, skidded, columns, towers, and more*

### CUSTOM FABRICATION

*Manufacturing, finishing, assembly, testing and delivery and also cater for custom one-of-a-kind and full-run production capable*
